Albin Sebana Kurian

Software Engineer | Frontend Developer | Angular Devoloper

albin.sebana.kurian@gmail.com +91 6282419985 Kerala,India https://albinsebana.github.io/portfolio/

SUMMARY

Frontend Developer with experience building scalable Single Page Applications (SPA) using Angular and React.js. Proficient in TypeScript, REST API integration, and performance optimization, with a strong focus on developing reusable, high-performance UI components and delivering user-centric web applications.

PROFESSIONAL EXPERIENCE

Software Engineer
Jul 2023 – Present

Aurionpro Solution ltd

- Developed 40+ responsive UI screens across 8 core modules using Angular 18 and React.js, delivering a scalable enterprise financial platform
- Built reusable UI components using React.js (Hooks, functional components) to improve modularity and development efficiency
- Contributed to a hybrid frontend architecture leveraging both Angular and React, ensuring seamless integration and consistent user experience
- Built a configurable quote engine interface enabling real-time comparison of multiple finance products with dynamic validations and recalculations, improving decision-making efficiency
- Implemented role-based access control (RBAC) including field-level visibility, form state management, and workflow-driven UI behavior to ensure secure and role-specific user interactions
- Developed dynamic and reusable forms using Angular Reactive Forms and modal-driven onboarding workflows, reducing manual input errors and improving onboarding efficiency
- Collaborated with cross-functional teams (UX, backend, business analysts) in Agile sprint cycles to deliver scalable and production-ready features within deadlines
- Optimized application performance through lazy loading, code splitting, and efficient state handling, enhancing load speed and scalability

Software Developer Intern
Sep 2022 – Mar 2023

Tecacs IT Group

- Assisted in developing frontend modules using Angular, HTML, CSS, and TypeScript.
- Implemented responsive UI components and integrated them with backend APIs.
- Fixed UI bugs and optimized page performance.

PROJECT EXPERIENCE

IFIN Dealer Portal – Loan Origination Platform

Angular 18,React,Redux, TypeScript, PrimeNG, RxJS, REST APIs

- Developed a large-scale enterprise financial platform enabling dealers to manage loan quotations, asset financing, customer onboarding, and finance contract workflows within a unified Single Page Application (SPA)
- Built and optimized UI modules for loan quotation and finance calculation workflows, improving accuracy and user efficiency in financial processing
- Implemented dynamic and scalable forms using Angular Reactive Forms to handle complex financial inputs, validations, and real-time recalculations
- Developed reusable and modular UI components (tables, modals, forms) using PrimeNG, improving code maintainability and development speed
- Integrated REST APIs for seamless data flow across modules, ensuring real-time updates and consistent user experience
- Streamlined end-to-end user workflows for customer onboarding and asset management, enhancing usability and reducing manual effort

TECHNICAL SKILLS

Frontend Development	Angular (v18), React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Responsive Design, SPA
State Management	Redux, Context API, RxJS, Component-Based Architecture, Standalone Components (Angular)
API Integration	RESTful APIs, HTTP Client (Angular), Axios, Fetch API, JSON, API Integration
UI Libraries & Styling	Bootstrap, Material UI, Tailwind CSS, Flexbox, Grid, Cross-Browser Compatibility
Tools & Technologies	Git, GitHub, NPM, Webpack, VS Code, Chrome DevTools, Agile/Scrum
Performance Optimization	Lazy Loading, Code Splitting, Performance Optimization, Reusable Components, Clean Code

EDUCATION

Masters In Computer Applications (Computer Applications)
2021 – 2023

Federal Institutes of Science And Technology

SOFT SKILLS

Problem Solving Communication Adaptability
Critical Thinking Team Collaboration

LANGUAGES

Malyalam English Hindi Tamil
